Leadership Somerset 2008 class

Press Release

“Go Green” with members of the 2008 Leadership Somerset Class.

Members of the 2008 Leadership Somerset Class set to launch electronic magazine with tips on how you and Somerset County can “Go Green” together.

Somerville, NJ, November 24, 2008: Since the environment affects everything and its fragile condition is on most people’s minds these days, members of the 2008 Class of Leadership Somerset decided to incorporate Eco-awareness into its community serviced project.

While the internet is full of energy saving information, it can also take time to wade through the myriad of available tips. Class members thought a one-stop green newsletter on how Residents and Businesses in county could make small and inexpensive changes in their everyday life that would contribute to saving the planet’s resources and would be both timely and important in today’s world. In this fast-paced, challenging society, people have neither the time nor the money to invest in something that does not give them immediate results. **GOING GREEN DOES.** The Leadership Somerset E-Zine gives tips that can garner immediate results!

The electronic E-Zine will be posted to the county website, the energy council, the planning board, mycentraljersey.com and sent to all the municipalities and the school boards within Somerset County.

Going “green” is fast becoming a global fact and scientific evidence shows that this generation will have the greatest impact on the environment within the next 50-100 years. There are many ways to begin a green lifestyle, and not all of them have to be complicated or costly. Pick out the ones that suits your everyday life and begin saving money and the earth.

For Release November 24, 2008
